

Dear Resident,

Golder Associates Ltd. would like to update you on upcoming construction work near your residence.

Golder will be conducting boardwalk repairs along the Waterfront Esplanade Park. Work that was planned to start in November has been postponed to January, but will still complete during the winter season.

There will also be one day of pile driving activity that is planned to occur, another notice will be sent when the date is set.

During construction, sections of the boardwalk will be blocked off, but the paved stone walkway will remain open to the public. There will also be some equipment and storage bins moving and parked along the sides of the paved stone walkway. Some general construction noise related to piling, equipment and tool operation, trucking, and other operations is expected during construction. Work will not occur on weekends or outside the hours of 7:00am to 8:00pm.

If you have any questions about the project, please contact George Otieno at the City of New Westminster by email at gotieno@newwestcity.ca.

Thank you for your understanding.

Daniel Yew
Project Manager
