

2018 Q to Q Ferry

Join us to discuss the 2018 pilot ferry service

Building on the success of the 2017 Q to Q demonstration ferry service, the City of New Westminster is running a pilot ferry service from spring to fall 2018. The passenger ferry service will run between the Quayside and Queensborough neighbourhoods providing a connection for commuters and those seeking leisure and recreational opportunities on weekdays and weekends. The Q to Q pilot ferry service connection will provide access from Queensborough to a number of destinations in Downtown

New Westminster including the River Market, Westminster Pier Park, Anvil Centre, SkyTrain, and other transit services. Residents and visitors will also benefit from enhanced access to Queensborough's businesses and scenic riverfront trails.

City staff would like to meet with local residents and businesses to share the 2018 pilot ferry vision and discuss how it measures up with your aspirations for the service. Please join us.

The Q to Q pilot ferry will run every 20 minutes from the Inn at the Quay to the Port Royal public dock.
